As a rental model, the sovia Retail Managed Services offer maximum benefit with little monthly start-up. All licenses are valid per frontend or branch with a term of 36 months from the last increase

The standard service package includes software support with a response time of 8 hours and technical support via ticket system/telephone and on-site replacement of defective devices within 48 hours on-site in Germany. The service package logistics and the EU foreign service have different conditions.

The device license includes displays for 24/7 operation with a plug-in PC and display wall mount or stand as well as the staging of all devices. All licenses have a standard term of 36 months.
